

Disclosure pursuant to Commerce Act (electricity information disclosure amendment requirements) Notice 2004, Part 6

Information to electricity consumers

Eastland Network Ltd is hereby notifying its new line charges effective 1 April 2009.

These charges are made by Eastland Network Ltd to electricity retailers for the use of its network in supplying electricity to consumers.

These charges are not the same as the electricity retail charges that appear

on consumer accounts. Retail charges include the other costs, such as energy purchase, that are repackaged by retailers into electricity retail tariffs. Consumers can derive the changes in their individual pricing positions resulting from line charge changes by comparison of the two schedules.

MATT TODD Chief Executive

Prices include GST

Energised ICP's are billed a Fixed daily charge as shown. Variable charges are shown as a per kWh charge as metered at the ICP.

Density	Price Category	Domestic Consumers	Line Charges Effective 1 April 2009			Customer No's	Line Charges Effective 1 April 2008			Customer No's
